

Sample document

This page exists to show off vault-chat's PDF marquee. Drag a rectangle around any region — the equation, the table, the chart — and ask the model about it. The model gets the pixels of what you boxed, which is why it works on rendered math, scanned pages, and handwriting.

A quadratic to solve

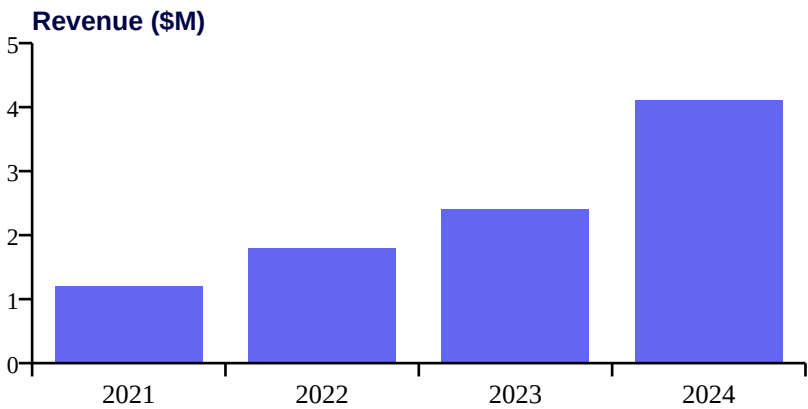

Drag a box around the equation below and ask *solve for x*.

$$2x^2 + 5x - 3 = 0$$

Quarterly revenue, 2021–2024

Drag a box around the table and ask *what was the average year-over-year growth?* — or box just the chart and ask *what trend does this show?*

Year	Revenue (\$M)	YoY growth
2021	1.2	—
2022	1.8	+50%
2023	2.4	+33%
2024	4.1	+71%

← the 2024 jump is suspicious — double-check the underlying numbers before citing.
